Sorry Jenny. I cannot tell you the exact date the thermal oxidizers were installed at Washington Works. I would not hesitate to just ask Andrew Hartten for the precise date. He has been quite open about these things in the past.

Hi Jeff,

I noticed in the Chemours information request we are asking for the date of installation of the thermal oxidizer units at Washington Works (in West Virginia). Therefore, I am guessing you don't have that information anywhere?

Roger, do you have that information? I want to know when the emissions started being controlled.

Thank you,  
Jenny
